

ea::method::Selector

```
graph BT; B[ea::method::BestSelector] --> S[ea::method::Selector];
```

The diagram illustrates an inheritance relationship between two classes. At the bottom is a white box labeled 'ea::method::BestSelector'. A blue arrow points vertically upwards from this box to a gray box at the top labeled 'ea::method::Selector'. This indicates that 'ea::method::BestSelector' inherits from 'ea::method::Selector'.
